Loss Of Life May Reach Near 200

SCORES OF TROOPSHIP MEN ARE IN THE BRITISH HOSPITALS

LONDON, Feb. 8.—Revised figures indicate that the loss of life on the Tuscania probably was considerably in excess of yesterday's estimates of 101, and it is now believed complete returns will show the number of dead nearer 200 than 100.

AN IRISH PORT, Feb. 8.—As the list of Americans on board the Tuscania was lost when the vessel went down, it will be impossible to ascertain the names of those lost until the names of the survivors have been cabled to the United States.

LONDON, Feb. 8.—A number of Americans rescued from the Tuscania were injured and ninety are in hospitals suffering from exposure and wounds.

Forty-four badly mutilated bodies have been washed up on the Irish coast about sixteen miles from the scene of the disaster.

None of the dead was identified. Their features were unrecognizable and as none had been assigned to definite army units, they did not wear the regulation identification discs.

PLAN GREAT FUNERAL

LONDON, Feb. 8.—Reports received at the American embassy yesterday indicated the loss of 101 lives, while the British admiralty's estimate was 210. This discrepancy now appears to have been due to the fact that the figures supplied to the embassy evidently did not include the missing, or which there are still many.

It was announced today that arrangements were being made by British and American officials jointly for great military funerals for the Tuscania's dead.

RESCUED AT THREE POINTS

WASHINGTON, Feb. 8.—Seventy-six officers and 1,274 enlisted men of the army, survivors of the Tuscania, have been landed at Buncrana, according to a cablegram received by the navy department today. Sixteen officers and members of the crew are at Larne, Ireland, and approximately 570 officers and enlisted men at Islay, Scotland.

Approximately ninety-nine soldiers and sailors are in hospitals. Six members of the crew and sev-

NEW ARMY FLYING CAMP FOR CITY OF RIVERSIDE

WASHINGTON, Feb. 8.—Establishment of an army flying field at Riverside, California, has been authorized by the War Department. It was announced today contracts calling for construction of hangars, barracks, machine shops and storage warehouses already have been let, though the firms and the amounts involved are withheld for the present time.

The Riverside station is to be what is known as a "one unit field,"

meaning that four complete aerodromes with all the men and material necessary to keep them in operation will be maintained there. The typical army aero squadron consists of twelve airplanes ready for flights and from two to four times that many in reserve or undergoing repairs to replace those damaged and destroyed. A force of thousands of mechanics and other skilled help will be established at Riverside in connection with the new field.

AUSTRIAN CABINET HAS HANDED IN RESIGNATIONS

AMSTERDAM, Feb. 8.—Dr. von Seydler, the Austrian premier, has tendered his resignation of his entire cabinet to Emperor Charles, according to a dispatch from Vienna.

The resignation of the von Seydler cabinet, it is understood in parliamentary circles in Vienna, is due to the opposition of Polish deputies.

Twenty-two soldiers are in the military hospitals at Londonderry.

Then soldiers are in the Loughfoyle hospital at Londonderry and nine soldiers and two members of the crew are in the county infirmary at Londonderry, according to the cable.

Latest reports reaching Washington indicate the death toll of the torpedoed Tuscania remains at 101. Of this number 73 were of the uniformed United States army. There are 81 soldiers in hospitals, of whom, it is feared, some at least will die from exposure. These figures were accepted as authentic by the War Department, they having been forwarded by the embassy in London.

YOUNG COUPLE ARE MARRIED AT CHRISTIAN CHURCH

The wedding of Miss Frances Frank and Lieutenant Elmo Russell Zumwalt, at the First Christian church, was witnessed by a large number of relatives and friends of the contracting parties. Rev. Thomas A. Boyer, pastor of the church, said the words that made the couple husband and wife.

The bride was attired in white and carried a bouquet of pink carnations and the groom and best man wore the uniforms of the United States army. A large American flag draped the pulpit.

The young couple will reside on Angel Island for the present where the groom is engaged in doing hospital work for the troops stationed there.

A million men may be in France in a few months—keep the lines open, and the food moving.

ROOSEVELT'S CONDITION IS REPORTED EXCELLENT

NEW YORK, Feb. 8.—Colonel Theodore Roosevelt, who was operated on Wednesday for fistula and abscesses in both ears, had a satisfactory night, it was announced at the Roosevelt Hospital early today.

"Mrs. Duell and Martin saw Colonel Roosevelt at 8 P. M.," the bulletin reads. "He had a very satisfactory night, having slept about six hours. He will be able to take nourishment at regular intervals during the day. His temperature and pulse are normal."

Shortly before 11 o'clock, Douglas Robinson, relative of the colonel, called at the house and talked with the physicians.

"I am told the colonel's condition is very encouraging," he said. Three special nurses and Dr. Harold K. Keyes were in constant attendance at the former President's bedside during the night. Mrs. Roosevelt spent the night in an adjoining room. The colonel's daughters, Mrs. Nicholas Longworth and Mrs. Richard Derby, remained at the hospital until a late hour last night and then left for a nearby hotel, leaving word they should be notified in case of any change in the colonel's condition. It was learned today that it was not found necessary to communicate with them.

During the night hundreds of telegrams from all parts of the country were received at the hospital and were turned over to Mrs. Roosevelt this morning. It was stated that visitors would not be allowed to see

Colonel Roosevelt during the forenoon. Persons in touch with the sick room considered the colonel's condition this morning "very encouraging." It was not expected that the physicians would visit the former President again until 1 o'clock this afternoon.

Mrs. Longworth and Mrs. Derby rejoined Mrs. Roosevelt at the hospital this forenoon. There were many callers, none of whom was allowed to see the colonel. They included George B. Cortelyou, who was his private secretary at the White House; Rear Admiral Albert Gleaves, several army officers and a number of personal and political friends.

FLOYD FARRAR WILL FILED FOR PROBATE

MARTINEZ, Feb. 8.—The will of the late Floyd Farrar of Richmond was filed in the Superior Court today for probate. The estate is valued at \$2,500. Under the terms of the will two sons and two daughters are left one dollar each. Another son is left \$50 while Della Smith, a daughter, is left the residue of the estate including some lots in Richmond. Mrs. Smith is named as executrix of the will and filed the petition for its probate.

The food situation among the Allies is grave, yet in America there is food enough and to spare.

BOLSHEVIKI BANISHES ENVOYS OF THE ALLIES

WASHINGTON, Feb. 8.—An unconfirmed report that all the allied missions at Petrograd had been driven out by the Bolsheviki government and are on their way to the Swedish border, was received today at the State Department through American Minister Morris at Stockholm.

The department has not heard from Ambassador Francis at Petrograd since February 2.

State Department officials were unprepared to believe that the American ambassador was leaving Petrograd, because his last dispatch contained nothing to indicate that he contemplated going. It was considered possible, however, that exclusion might also include a refusal to permit the diplomats to communicate with their governments.

Minister Morris at Stockholm also reported that two trains from Petrograd had arrived there, one bringing the expelled Rumanian legation. He also reported the capture of Fort Nea by the White Guards.

BABY DAUGHTER IS BORN AT SANATORIUM

The home of Mr. and Mrs. Louis Voss, 124 Second street, was gladdened Tuesday by the arrival of a little 7½-pound daughter, born at the Barrett Sanatorium. Advice from the Sanatorium today are to the effect that the mother and little one are getting along nicely.

In this connection it may be well to state that the Barrett Sanatorium is now under the management of Miss M. Powell, a registered nurse from San Francisco who assumed charge of this popular hospital on the first of the present month. She

THRIFT STAMPS TO RECEIVE BOOST MONDAY

The Richmond Thrift Stamp Saving committee will give a free entertainment to the public of Richmond in the Lincoln auditorium Monday night. A jolly vaudeville program is being planned, including some clever dancing by Miss Carrie Ellsworth, Miss Bernice, juvenile violinist, will render some pleasing selections and the Elks' quartette will be there with some good songs. Other local and out-of-town talent is being solicited and there will be some excellent speaking as well. Walter T. Helms is chairman of the committee. He is being assisted with details by Charles Donnelly and others.

HUSBAND DEAD IS BELIEF OF MRS. CAPLICK

MARTINEZ, Feb. 8.—When Mrs. Elizabeth Caplick of Stage accompanied her fiancé Carl A. Peterson of Pullman to the County Clerk's office Thursday morning to secure a license to become his wife she answered the issuer of the marriage permit that she had been married before and that she believed her first husband to be dead.

County Clerk J. H. Wells was not fully satisfied that he could issue a license on such a statement, so he required Mrs. Caplick to swear to an affidavit to the effect that she had not heard from her husband Albert J. Caplick since he deserted her in 1908 and that she had been subsequently informed by his mother that he had died.

This is the first time in many years that such an affidavit has accompanied the issuance of a bliss permit in this county.

She has renovated it thoroughly and visitors state that it is an extremely inviting and cozy place, and seems to be conducted in an up-to-date manner.

Miss Powell has had long experience in the conduct of small hospitals and she feels greatly encouraged over the kindly reception she has experienced in Richmond both from the doctors and the public.

LOCAL MAN LISTED AS BEING ON BOARD THE TUSCANIA

The John T. Grenfell mentioned in the dispatches as having been aboard the ill-fated Tuscania, is unquestionably Thomas Grenfell, of this city who enlisted long before the draft went into effect in the Aero Corps. He was formerly employed in the inspection department of the Standard Oil company and was 19 years of age at the time of his enlistment. His father and mother are both dead and the estate is being administered by Mrs. Mary Walsh, of this city.

For a time young Grenfell was stationed at Angel Island and went from there to Fort Sam Houston, San Antonio, Texas, where he has been in training. It is understood up to the time of his departure for Europe.

Until the government receives final advice concerning those saved in the Tuscania, the fate of young Grenfell will be in doubt, as his name is not mentioned as being among those saved, but simply as being aboard the ship.

It is almost definitely known that Lieutenant Truman H. DeLap sailed for France long before the departure of the Tuscania from Halifax. DeLap wrote to one of his business agents regarding certain private matters under date of the 21st of January and he was then in New York and from the text of his letter it was understood that he was on the eve of sailing at that time.

Washington authorities declare today that physical difficulties in preparing lists of survivors of the Tuscania, at the War Department,

HANG ON TO GOVERNMENT BONDS

Secretary McAdoo has sounded a timely warning against parting with liberty bonds indiscriminately in trade for other securities. This sort of thing has been going on lately on an alarming extent. There are two good reasons for stopping it.

First, as the secretary tells the bondholders, a large part of the securities, or so-called securities, offered in exchange for government bonds, are worthless. The country is full of conscienceless promoters and schemers trying to unload stock certificates of doubtful value on a gullible public. It is easier than usual, because people have more money, and particularly because they have in their possession these war bonds, whose value many of them fail to appreciate. The hawkers of dubious securities, however, know the value of those bonds perfectly well. That is why they are so eager to take them in payment. The public should realize that 3 1/2 or 4 per cent income, absolutely certain, on a security whose redemption at par is also absolutely certain, is much more desirable than any flamboyant promise of two or three times that rate of income on a gambling investment.

Second, the welfare of the country demands that buyers of liberty bonds should hang onto them as long as possible. It isn't the purchase of the bonds that helps the war along. It's the keeping them. Every time a bond changes hands it diminishes, by just so much, the market for additional bond issues. The man who gets your bond ought to have bought one from the government instead, thereby providing that much more money to apply on the war.

BIG VICTORY FOR AMERICAN MECHANICS

It was American mechanics against German, and American won. It was the spirit of construction against the spirit of destruction, and construction won. It was a conflict between American and Teuton brains, and the American won. It was a victory not less than that won by force of arms in a great battle.

When Uncle Sam seized the great fleet of German vessels found in his harbors, he discovered that their German crews had mutilated or destroyed the machinery. The Germans laughed and said it would be years before the intricate machinery, engines and other parts would perform their functions. But American engineers and mechanics went to work. They invented new methods of welding by which the damaged engines and other heavy parts could be repaired as they lay in the ships. Tests show that these repaired parts are stronger than originally and that the ships are making better time than ever before, and every one of these ships is now carrying American fighters to France by the thousands.

We are the greatest people on earth, at anything. And we know it.

While the medals and honors are being passed out, we should not overlook the brainy Americans who have put 600,000 tons of German shipping to fighting Germany, in spite of German dirty work.

TOO MUCH COVERING UP OF FACTS

The Fresno Herald observes that there is an invaluable lesson to the national administration that should be learned from all these charges of inefficiency against the war department, and that is that there has been too much covering up.

Reading Secretary Baker's recent statement before the senate committee, one has to wonder why it was not made some time ago and why it took scandalous charges to bring it about.

The Herald ventures the opinion that while his opponents have built a strong case against him, Mr. Baker has the inside turn on account of his frank admission of error and delay; his pledge that these are rapidly being minimized, and through Secretary Daniels' word that he has shipping enough for 500,000 men.

The people will eat corn, go without meat and sugar and furnish the men and the money. Let the Government remember this. But on the other hand, they are entitled, in return, to information.

Our war management has concealed from the American people much information that it has not been possible to conceal from Germany. It has been so afraid of furnishing aid and comfort, in the way of information, to Germany that it has denied desirable aid and comfort to America.

While the tragedy of the sinking of the Tuscania, a troopship loaded with our American fathers, sons and brothers and the consequent loss of life is a deplorable affair and one which causes the hearts of the nation to ache, it is the fortune of war and a thing to be expected. And while we grieve for the brave boys who have gone to their death by the act of the lawless Germans, the people of America will only steel their arms and set out more resolutely than ever before to bring the war to an end by subjugating this nation which has defied the laws of God and man.

**JAPANESE SPY IS
NEW FILM AT
RICHMOND**

Apparently the Japanese take pic-
tures far more seriously than do
Americans; at least that would be
the assumption from Sessue Hayaka-
wa's statement that his performance
in "The Cheat," a former Paramount
picture which rendered the Oriental
actor extremely popular with Ameri-
can playgoers, made him unpopular

with some of his countrymen.
This fact was developed recently
when Sessue Hayakawa asked Dir-
ector William C. De Mille what the
nature of his role would be in "The
Secret Game," which is his latest
Paramount picture, showing at the
Richmond Theatre today and to-
morrow.

"A Japanese spy," answered Mr.
De Mille.

"Nothing doing!" said the Nip-
ponese firmly. "I can't afford to
take another chance of making my-
self unpopular with my countrymen
as I did with some of them when I
played in "The Cheat."

"But," explained the other, "you
are supposed to be working for the
American government this time."

"Fine!" exclaimed Hayakawa,
"that makes it all right."

Hayakawa, who pursued part of
his studies at the University of
Chicago and admires the people in
the land of his adoption, still holds
a strong regard for his own country
and countrymen. The thought of
offending them is abhorrent to him
and he is always extremely cautious
in assuring himself that he will not
be called upon to do anything on the
screen that might reflect upon the
dignity or honor of his nation or its
citizens.

**INVENTORY OF
HOUSEHOLD
SUPPLIES**

MARTINEZ, Feb. 8.—In further-
ance of the plan to increase the
home preservation of fruits, etc., and
to list accurately the stocks of such
edibles the housewives of Martinez
together with those of all parts of
the country are to be called upon
in a few days to make an inventory
of the supply which they have of
jams, jells and preserved fruits of
all descriptions. Blanks for this
purpose have been received by Mrs.
H. J. Curry and committees of the
Improvement Club and Boy Scouts
will circulate the same shortly.
In addition to the inventory of
the supply of these articles a com-
plete list of the empty containers
in each home is also to be made up.
There is no law which compels this
but the women are asked and urged
to comply with the request as a pa-
triotic move.

Rodents Play Safe

A long and wet spring is pre-
dicted by the nature men who find
their authority for their predictions
in the fact that the squirrels are taking
to the hills, which means they are
getting up out of the wet and the
rats are building double walls to
their mansions also indicative of
a wet spell. The rodents are ap-
parently advocates of preparedness.

"Food will win the war!" whose
food—German or American?
The world awaits your answer.

**"Cherry's Proved My
Best Friend Ada"**

"Wouldn't it have been mortifying
to have had to refuse that splendid
invitation to Anita's week-end party
just because I had no suitable clo-
thes? Yet that was just the situa-
tion when I heard about CHERRY'S
liberal way of selling clothes. So
I chose a stunning one-piece blue
serge and a smart velvet coat—each
wonderfully reduced in price. Now
I'll pay a little each week and wear
the clothes in the meantime. There's
no use in going without pretty clo-
thes, for this easy payment way puts
them within everybody's reach.

**HAVE ROSY CHEEKS
AND FEEL FRESH AS
A DAISY—TRY THIS!**

Says glass of hot water with
phosphate before breakfast
washes out poisons.

To see the tinge of healthy bloom
in your face, to see your skin get
clearer and clearer, to wake up with-
out a headache, backache, coated
tongue or a nasty breath, in fact to
feel your best, day in and day out,
just try inside-bathing every morn-
ing for one week.

Before breakfast each day, drink
a glass of real hot water with a
teaspoonful of limestone phosphate
in it as a harmless means of washing
from the stomach, liver, kidneys and
bowels the previous day's indigesti-
ble waste, sour bile and toxins; thus
cleansing, sweetening and purifying
the entire alimentary canal before
putting more food into the stomach.
The action of hot water and lime-
stone phosphate on an empty stom-
ach is wonderfully invigorating. It
cleans out all the sour fermenta-
tions, gases and acidity and gives
one a splendid appetite for break-
fast.

A quarter pound of limestone
phosphate will cost very little at the
drug store, but is sufficient to dem-
onstrate that just as soap and hot
water cleanses, sweetens and fresh-
ens the skin, so hot water and lime-
stone phosphate act on the blood
and internal organs. Those who are
subject to constipation, bilious at-
tacks, acid stomach, rheumatic twin-
gles, also those whose skin is sal-
low and complexion pallid, are as-
sured that one week of inside-bath-
ing will have them both looking and
feeling better in every way.—Adv.

CALIFORNIA-WYOMING OIL CO.

A co-operative company, organized under the laws of the state
of California, has acquired 14 acres of proven oil land one
and three-fourths miles from Grosby, Wyoming. This tract is plotted
into lots 20 by 30 feet, which sell for \$30 each, \$7.50 cash, and
the balance \$7.50 per month. The purchaser receives a deed on
final payment. Each lot has a pro rata interest in all oil pro-
duced on the tract. The wells of this district average about 300
bbbls. per day of high gravity oil. One well on one property, pro-
ducing 300 bbbls. per day, would pay each lot owner several times
the cost of his lot the first year.

We have every reason to believe we will get a good well. Will
you take a speculative chance and buy a lot?

Oh! Land Girl Avoids Embarrassing Dilemma

OH! LAND GIRL AVOIDS EMBARRASSING DILEMMA.
Mae H., Oakland girl, found herself in a real predicament the other day. Her brother, a sergeant in army at Camp Fremont, was home for a few days' furlough. He expected to be sent to France shortly, so, of course, numerous social functions were planned for him. A friend of the family's gave an elaborate dinner party—of course Mae had to go—but she found to her dismay she hadn't a suitable thing to wear. She was in despair until some one told her about CHERRY'S liberal credit way of selling clothes. So she went to this attractive shop and chose the most adorable little blue evening gown. What Mae did YOU can do—don't put it off another day. This address is Women's store, 515 13th st., Oakland; Men's store, 528 13th st.—Adv.

LOCAL MAN LISTED AS BEING ON BOARD THE TUSCANIA

(Continued from page One)

may greatly delay publication of an accurate list of the lost. The survivors have been landed at various points.

Until officers manage to get in touch with them and check them off against the muster rolls, or until a complete list of the names of survivors can be assembled at some central point and checked against the ship's papers, there is no way to determine who are missing, although the number may be known.

There also is a possibility that additional survivors may have been picked up by patrol boats. The list of lifeboats also must be checked up, as one or two might have made shore unaided.

There are instances in submarine disasters where crews have been taken from their boats by outward bound vessels. It is regarded as unlikely, however, that any survivors of the Tuscania will be found to have matched this experience, and when all patrol craft in the vicinity have reported the list of missing will be regarded definitely as the list of dead.

J. Solide, a worker at the Standard Oil company fell from a scaffold this afternoon and broke his leg. He was taken to the Merritt hospital in the Smallwood ambulance for treatment.
